Dear Human Resources Manager:

I am writing to apply for any job position that fits my qualifications in your esteemed company. Please consider me an applicant.

I'm a fresh graduate of Bachelor of Science Information Technology at the University of San Carlos Cebu City.

My internship provided me some experiences and opportunity to gain knowledge. We developed an online procurement system from the LGU of Tagbilaran Bohol, I was assigned both frontend and backend module of the system. Coding with two web frameworks (Laravel & Vue.js), it has vastly improved my skills and experience especially with web technologies. My coding practices have also drastically improved in terms of industry-standard coding practices. My on-the-job training prepared me in the future by providing me invaluable experience. I have used what I learned and implemented it in our Capstone Project which we developed an online shopping entitled "eHarvest: A mobile responsive web application for agricultural crops with SMS notification.

Being a highly motivated and industrious individual who is keen in learning new technologies and new approach to things. Some of my core strengths include programming, networking, system administration, and data security. I am much more willing to utilize all my skills when working with your company.

I am hoping that you will look favorably in my application by recognizing my skills and experiences and skills. I look forward to meeting you in person and I hope to hear from you soon. Should you need further information. Please contact me through my phone number or my email.

Thank you very much in advance for your time and consideration.

Sincerely yours,

Justin Graig j. Manigo
Applicant

JUSTIN GRAIG MANIGO

INFORMATION

AGE: 21

SEX: MALE

BIRTHDATE: January 30, 1998
